While cleaning an old house in the rear of the Columbia Hotel in Cynthiana Tuesday, the dead body of an infant was found in a telescope. The mother proved to be a half-demented white woman, who explained matters to a Coroner's Jury, and she was released.

In affirming the judgment of the Harrison Circuit Court in a case of A. M. Cox against the City of Cynthiana, the Court of Appeals upholds the right of the city to refuse to furnish water to a tenement house which is supplied with one pipe from the water main in the street if any occupant of the house is in arrears in the payment of water rent.

A dam across the Mississippi at Keokuk, Iowa, to cost \$6,000,000 and that will be thirty feet high, with a lock to permit the passage of vessels, the test of which undertaking is being made now at an outlay of \$50,000, is considered a certainty in the near future. The work will be used to furnish power to many factories in that thriving and prosperous city.

The Lexington Leader says a few weeks ago John Frederick, a huckster of that city, was married to Mrs. Jennie Gray, a dashing widow of Flemingsburg. All went lovely for awhile, when the wife began to talk about coming to this city to reside. John was undecided about the change, so consulted a fortune-teller, who, among other things, told him that his better half was going to fly away. John didn't believe it, but To-day, on his way home, he met his wife, with all her belongings—two children and some clothes—on her way to the Depot coming back. He tried to get her to return home, but she had made up her mind to go, so they parted with smiles.

DANGEROUS WOUND

Maysville Man Receives One From a Copperhead Snake

Mr. Jeff Bradley, who resides at Third and Commerce streets, is employed by a logging firm in Lewis county, which is now engaged in securing some fine timber from that section.

Monday afternoon Mr. Bradley was engaged in cutting some weeds out of the way in order to get a large log down onto the level.

Suddenly he felt a sting on the back of his left hand as if he had run a pin into the flesh.

At the same time he felt excruciating pains, which went from his hand to his shoulder, and which were almost unbearable.

His hand and arm began swelling, and he started for the doctor, the nearest one being half a mile away, and twice he was compelled to sit down to keep from fainting.

When he reached the doctor he was almost exhausted, and his arm and hand were awfully swollen.

The doctor gave him medical attention, and Wednesday his arm began turning in spots of bright yellow from the poison.

He is getting along all right now, but is unable to go to work.

GOVERNOR VARDAMAN of Mississippi has sprung aleak again. Nothing will now satisfy him short of the extermination of the whole Negro race.

THE Czar of all the Russias has stirred up another hornet's nest. The Shah of Persia has broken out; and when the armies meet and begin firing names at each other the fatalities will make the death-list at Mukden look like a summer boarding-house menu.

THE new railway rate law has gone into effect, but before it did the Democratic party, through its "peerless leader," Mr. BRYAN, had a new policy. He is preaching that new policy of Government Ownership all over the country today, and while a few of the more conservative

Democrats in the South refuse to subscribe to it, it is as much the Democratic policy now as Sixteen-to-One was in 1896. While Mr. CLEVELAND was in the middle of his second term as President, and was appealing to Republicans in Congress to help him repeal the Sherman purchasing clause, Mr. BRYAN and his followers in the West were laying the wires for a free silver campaign. They practically committed the Democratic party to that policy in 1894, and two years later they defeated Mr. CLEVELAND's friends in the Chicago Convention and nominated Mr. BRYAN on that platform.

COMBINATION SALE!

It is my purpose to have a combination sale of city property and farms on Wednesday, October 24th, 1906, beginning at the Court-house at 10:30 a. m., at which time the farm property will be sold and the program for the day announced.

One very important thing in order to have a successful sale is to have a good attendance of buyers. In order to secure this result, I will arrange for some good music and other attractive features. Ladies as well as gentlemen will be expected and provision made for their comfort. Transportation will be furnished for those who wish to visit the property, but this does not include children.

If you have property that you desire to sell at public auction this will be your cheapest and best method of doing so, as I pay all advertising and other expenses connected with the sale for a nominal fee for each piece of property listed for sale. In case of failure to sell, this is the only expense that you will have to pay. In case sale is made, my usual commission will be charged, minus the above fee.

I have attended some sales of property at public auction where the attendance was so small that no enthusiasm or interest could be aroused. By this plan, if your property has any merit, you may expect to have competitive bidding. Should you desire to take advantage of this opportunity to sell your property come to me at once in order that it may be properly classified and advertised. I expect to offer some very desirable homes and farms; also, some vacant lots. There is no doubt but what I can manage your farm property to good advantage, provided you wish to have it exposed to public sale.

Shall be glad to have you call and get full information.

JOHN DULEY.

Mr. BRYAN and his followers, in as far as it is possible for a great party leader to do so, have again committed the Democratic party to a new policy, and Government Ownership of Railways is the paramount issue of that party. The issue has been made, and it is now, as it will be in 1908, between Government regulation by railways and Government Ownership of all the vast railway system of the United States. The one policy has been tried and has proved efficient in most cases. The law has, from time to time, been amended to make it more effective, and the new act passed by the Fifty-ninth Congress is acceptable to shippers and other patrons of the railways as effective on all points where the old law failed.

The simple question is, whether the Government shall continue the present policy of standing guard over the citizens' rights and compel the railways to do justice by shippers and communities, or whether it shall purchase all the railways and try to operate them, adding 1,500,000 railway employes to the Government payroll and give opportunity for all kinds of graft by men without conscience who get into positions where they can rob the public for their own private gain. The Democratic party stands for this policy because it stands for Mr. BRYAN, and he is preaching it all over the land. A Republican Congress this fall means a continuance of Government regulation. A Democratic Congress means a policy of Government Ownership, or the threat of it, which is equally dangerous.

HE DIDN'T WANT IT.

"Doctor," said the man who wanted to work him for a free prescription, "what would you give for a sore throat?"

"Nothing," replied the doctor, promptly. "I don't want a sore throat."

Commissioner's Sale

LUTHERAN CONFERENCE

Proceedings of Yesterday's Session at the German Church

The session of the Lutheran Conference manifested the same interest as on the preceding day.

After reading and adopting minutes the Treasurer made his semi-annual report which showed a balance of about \$80.

This Treasury received contributions for the training of young men for the ministry. The wealthy do not usually supply the boys who enter the ministry and the poorer classes often lack the funds required for a thorough education. At present this Conference supports three students, besides three or four who are supported by individual members or congregations.

It will be seen that strenuous efforts are made that the vacancies in the ministerial ranks may be filled.

Some time was spent in discussing questions submitted by Pastors.

In their work they meet with difficulties and they may desire the advice of their brethren. But because these questions refer to a case actually in existence, nothing is published.

The paper taken up at the morning session is that of the so-called Free Protestant or officially The Evangelical Protestant Society. The general meaning of the term Protestant embraces all Christians outside of the Roman Catholic Church. In the application of the term designating this particular society it must be noted that these Protestants are distinct from the Evangelical Lutheran, the Reformed and the Evangelical (Unite Kirche.) Many people mistake one for the other and unite with a Free Protestant Society when they were looking for the Evangelical Lutheran Church. That is largely due to ignorance.

A significant feature of their entire system of doctrine is that they adopted no distinctively Lutheran doctrine or form. The arrangement in their Catechism of the doctrine resembles strongly that of the Reformed and not that of the Lutheran Church. They have adopted the Reformed order in enumerating the Commandments. From the order of service they have excluded everything that is characteristic of the Lutheran Church.

Again, when reviewing the Catechism one notices that many things of great importance and essential to faith are ignored, while many things that are taught lack clearness. At any rate a Lutheran cannot be satisfied with the presentation of the way of salvation as it is

A dispatch from Havana says it is feared that American intervention cannot be averted. If the landing of the American forces is required, Secretary Taft has decided to take over the Cuban Government instantly. He has received authority from President Roosevelt to take this extreme step, in which event he will proclaim himself Governor. Secretary Taft has been informed that the Cuban Government officials have not acted on the square, and do not intend to negotiate peace.

BUILT UP HER HEALTH SPEEDY CURE OF MISS GOODE

She Is Made Well by Lydia E. Pinkham's Vegetable Compound, and Writes Gratefully to Mrs. Pinkham.

For the wonderful help that she has found Miss Cora Goode, 255 E. Chicago Avenue, Chicago, Ill., believes it her duty to write the following letter for publication, in order that other women afflicted in the same way may be

benefited as she was. Miss Goode is president of the Bryn Mawr Lawn Tennis Club of Chicago. She writes: Dear Mrs. Pinkham:—

"I tried many different remedies to build up my system, which suffered greatly from loss of proper rest and unreasonable hours, but nothing seemed to help me. Mother is a great advocate of Lydia E. Pinkham's Vegetable Compound for female troubles, having used it herself some years ago with great success. So I began to take it, and in less than a month I was able to be out of bed and out of doors, and in three months I was entirely well. Really I have never felt so strong and well as I have since."

No other medicine has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound.

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacement of organs, inflammation or ulceration, can be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Her experience is very great, and she gives the benefit of it to all who stand in need of wise counsel. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Address, Lynn, Mass.

IN MEMORIAM.

ELORA VIMONT, daughter of Dr. and Mrs. Alexander Hunter, and wife of Mr. Cleves Harrison Howell, died in the twenty-seventh year of her age.

She went out a joyous and radiant bride six months ago this day in which she is to be borne to the grave—a silent commentary on the vanity of all things mortal.

She was an ordinary young woman, either in natural endowments or attainments of mind and heart. She had great force of character, which was shown in application to studies, to friendship, to Church and to home affairs.

She bore her months of suffering with Christian fortitude and resignation. As she was the idol of her father on account of her brilliant mind, so she was the cherished friend and companion of her associates on account of her unvarying kindness of heart.

Who may estimate the grief of the young husband, who, being called from her sickbed by pressing duties in his capacity as Civil Engineer, hoped to return finding her improved; when he finds her cold in death? She refused to have him recalled until it was too late, thinking she might be able to be up when he should come.

The community unites in sympathy with the brothers, some of whom are far away, to the sisters, the father and mother and to the stricken husband.

She is now with her God and Savior, the Holy Angels and the spirits of just men and women made perfect, having years ago while in health and strength made that wise choice which is the earnest of such blessed company.

"The boast of heraldry, the pomp of power,
And all that beauty, all that wealth e'er gave,
Await alike the inevitable hour—
The paths of glory lead but to the grave."

AS TOLD IN THE HILLS.

"As Told in the Hills," which will be seen here with Katherine Challenger in the leading role, supplies the want for something entirely new in the field of melodrama and stands as an example of the best American melodrama. The plot is original, both in its conception and development and the characters are clearly drawn and extremely interesting in their naturalness. The engagement at the Washington Theater is Monday, October 1st. Seats on sale at Ray's Saturday morning.

**TERRIBLE ECZEMA
ON LITTLE BOY**

Mouth and Eyes Covered With Crusts—Face Itched Most Fearfully—Hands Pinned Down to Prevent Scratching

**MIRACULOUS CURE
BY CUTICURA REMEDIES**

"When my little boy was six months old, he had eczema. The sores extended so quickly over the whole body that we at once called in the doctor. We went to another doctor, but he could not help him, and in our despair we went to a third one. Matters became so bad that he had regular holes in his cheeks, large enough to put a finger into. The food had to be given with a spoon, for his mouth was covered with crusts as thick as a finger, and whenever he opened the mouth they began to bleed and suppurate, as did also his eyes. Hands, arms, chest, and back, in short the whole body, was covered over and over. We had no rest by day or night. Whenever he would lie in bed, we had to pin his hands down; otherwise he would scratch his face, and make an open sore. I think his face must have itched most fearfully."

"We finally thought nothing could help, and I had made up my mind to send my wife with the child to Europe, hoping that the sea air might cure him, otherwise he was to be put under good medical care there. But, Lord be blessed, matters came differently, and we soon saw a miracle. A friend of ours spoke about Cuticura. We made a trial with Cuticura Soap, Ointment, and Resolvent, and within ten days or two weeks we noticed a decided improvement. Just as quickly as the sickness had appeared it also began to disappear, and within ten weeks the child was absolutely well, and his skin was smooth and white as ever before." E. Holmrat, President of the C. I. Lohrhardt Co., New York Manufacturer of Silk Ribbons, 4 to 26 Bank Alley, June 5, 1905.

UNITED STATES COURT OF CLAIMS

The Publishers of Webster's International Dictionary alleged that it "is, in fact, the popular Unabridged thoroughly re-edited in every detail, and greatly enriched in every part, with the result of fulfilling to the larger and severer requirements of another generation."

We are of the opinion that this allegation most clearly and accurately describes the work which has been accomplished, and the result that has been reached. The Dictionary, as it now stands, has been thoroughly re-edited in every detail, and is admirably adapted to meet the larger and severer requirements of a generation of philological knowledge than any one generation that the world has ever contained.

It is perhaps needless to add that we refer to the dictionary in our judgment as of the highest authority in the country, the Bettendorf, and that in the future as in the past it will be the source of constant reference.
